OBJECTIVE

Results-driven and detail-oriented Software Developer with a Bachelor's degree in Computer Science and hands-on experience designing and implementing Java-based applications through internships and academic projects. Proficient in Java, SQL, manual testing with a solid understanding of object-oriented programming, Agile methodologies, software testing. Seeking to contribute my skills in a dynamic development team to build innovative software solutions.

EDUCATION

Bachelor of Engineering (Computer Engineering) Savitribai Phule Pune University (Approved by AICTE)	2022-2025
Diploma in Technology (Computer Technology) Sanjivani K. B. P. Polytechnic, Kopargaon	2019-2022

SKILLS

Languages: Java (OOPs, Exception Handling, File Handling, Multi Threading, Collection, JDBC)
Frontend: HTML, CSS, JavaScript.
Framework: Spring Core, Spring Boot, Spring MVC, Spring Data JPA, Hibernate with JPA, Bootstrap.
Database: SQL
Software Testing: Manual Testing, Functional Testing, Integration Testing, System Testing, Test Case Design & Execution, SDLC & STLC, Agile Model, Verification & Validation, Usability Testing, Performance Testing, Compatibility Testing, Alpha Testing, Beta Testing, Acceptance Testing, Smoke Testing, Sanity Testing, Defect Report.
Tools: STS, Postman, Maven, PostgreSQL, Eclipse, VS Code, IntelliJ, Git, GitHub, MS_Excel.
Data Structures & Algorithms, Rest API, Communication, Quick Learner, Problem Solver.

INTERNSHIP

Java Full Stack Intern, The Kiran Academy - Developed backend modules using Java, JDBC, Spring Boot, and MySQL. - Implemented CRUD operations and exception handling for enterprise-style applications. - Collaborated with mentors to understand software development best practices and project workflows. - Worked with REST APIs and database integration.	June 2024 - July 2024
Software Developer Intern, TechnoGrowth Software Solution Pvt Ltd - Developed responsive web pages using HTML, CSS, and JavaScript. - Participated in software development life cycle activities including design, coding, testing, and deployment. - Worked with team members to deliver web application features on schedule.	May 2021 - Aug 2021

PROJECTS

Internet Banking Management System (IBMS) | Java, Spring Boot, Spring Data JPA, PostgreSQL, JSP, Docker, Git, GitHub.

- Live Demo: <https://ibms-edue.onrender.com/> GitHub: <https://github.com/Game-Pawan/ibms>
- Developed an Internet Banking Management System (IBMS) using Java, Spring Boot, JSP, and PostgreSQL, implementing features such as user registration, account management, fund transfers, balance inquiry, and transaction tracking.
- Integrated Neon PostgreSQL cloud database and deployed the application on Render using Docker, Maven, Git, and GitHub, utilizing environment variables for secure cloud deployment.

Company Management System | Java, Hibernate with JPA, JSP, PostgreSQL.

- GitHub: <https://github.com/Game-Pawan/Company-Management-System>
- Developed a web-based Company Management System using Java, Hibernate, JSP, and PostgreSQL.
- Implemented CRUD operations for managing employees, projects, departments, and meetings.
- Utilized Hibernate ORM to simplify database interactions and reduce boilerplate SQL code.

Reservation System for Hotel | Java, JDBC, PostgreSQL, Eclipse.

- GitHub: <https://github.com/Game-Pawan/HotelReservationSystem>
- Developed a console-based Hotel Reservation System using Core Java, JDBC, and PostgreSQL.
- Implemented room booking, customer registration, reservation tracking, and billing functionalities.
- Applied Object-Oriented Programming principles such as encapsulation, inheritance, and abstraction.

CERTIFICATIONS

- Java Full Stack Developer by Ashwani Kumar (Senior Software Engineer).
- Software Testing training course from Q-Spider Institute.

ACHIEVEMENTS

- Solved 60+ problems on LeetCode. | Profile: https://leetcode.com/u/Pawan_Game/
